Working with Degenerative Processes

Monitoring Client's Progress

Training is provided onsite in an existing clinic located in Sylvester, Georgia. Lisa Renee Jones, N.D. has been a practicing technician since 1998 and has been involved in alternative therapies since 1991. She has trained technicians for over 9 years on various types of Alternative Equipment. She currently maintains a client base of over 1,000 clients.

The cost of training is \$575.00 per day per person for those who have not already purchased qualified equipment.
